PROJECT CONTEXT

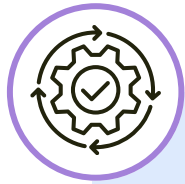

- Companies managing large numbers of employees and skills.
- Assigning the right employee to the right task is complex.
- Decisions are often made manually

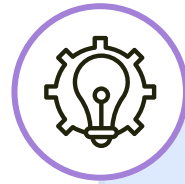

Observed Problems :

- Lack of visibility into skills.
- Wasted time and human error.
- Subjectif decisions

PROBLEMATIC

Decisions based on subjective criteria

Employees are not always assigned fairly

Activity descriptions are not analyzed intelligently

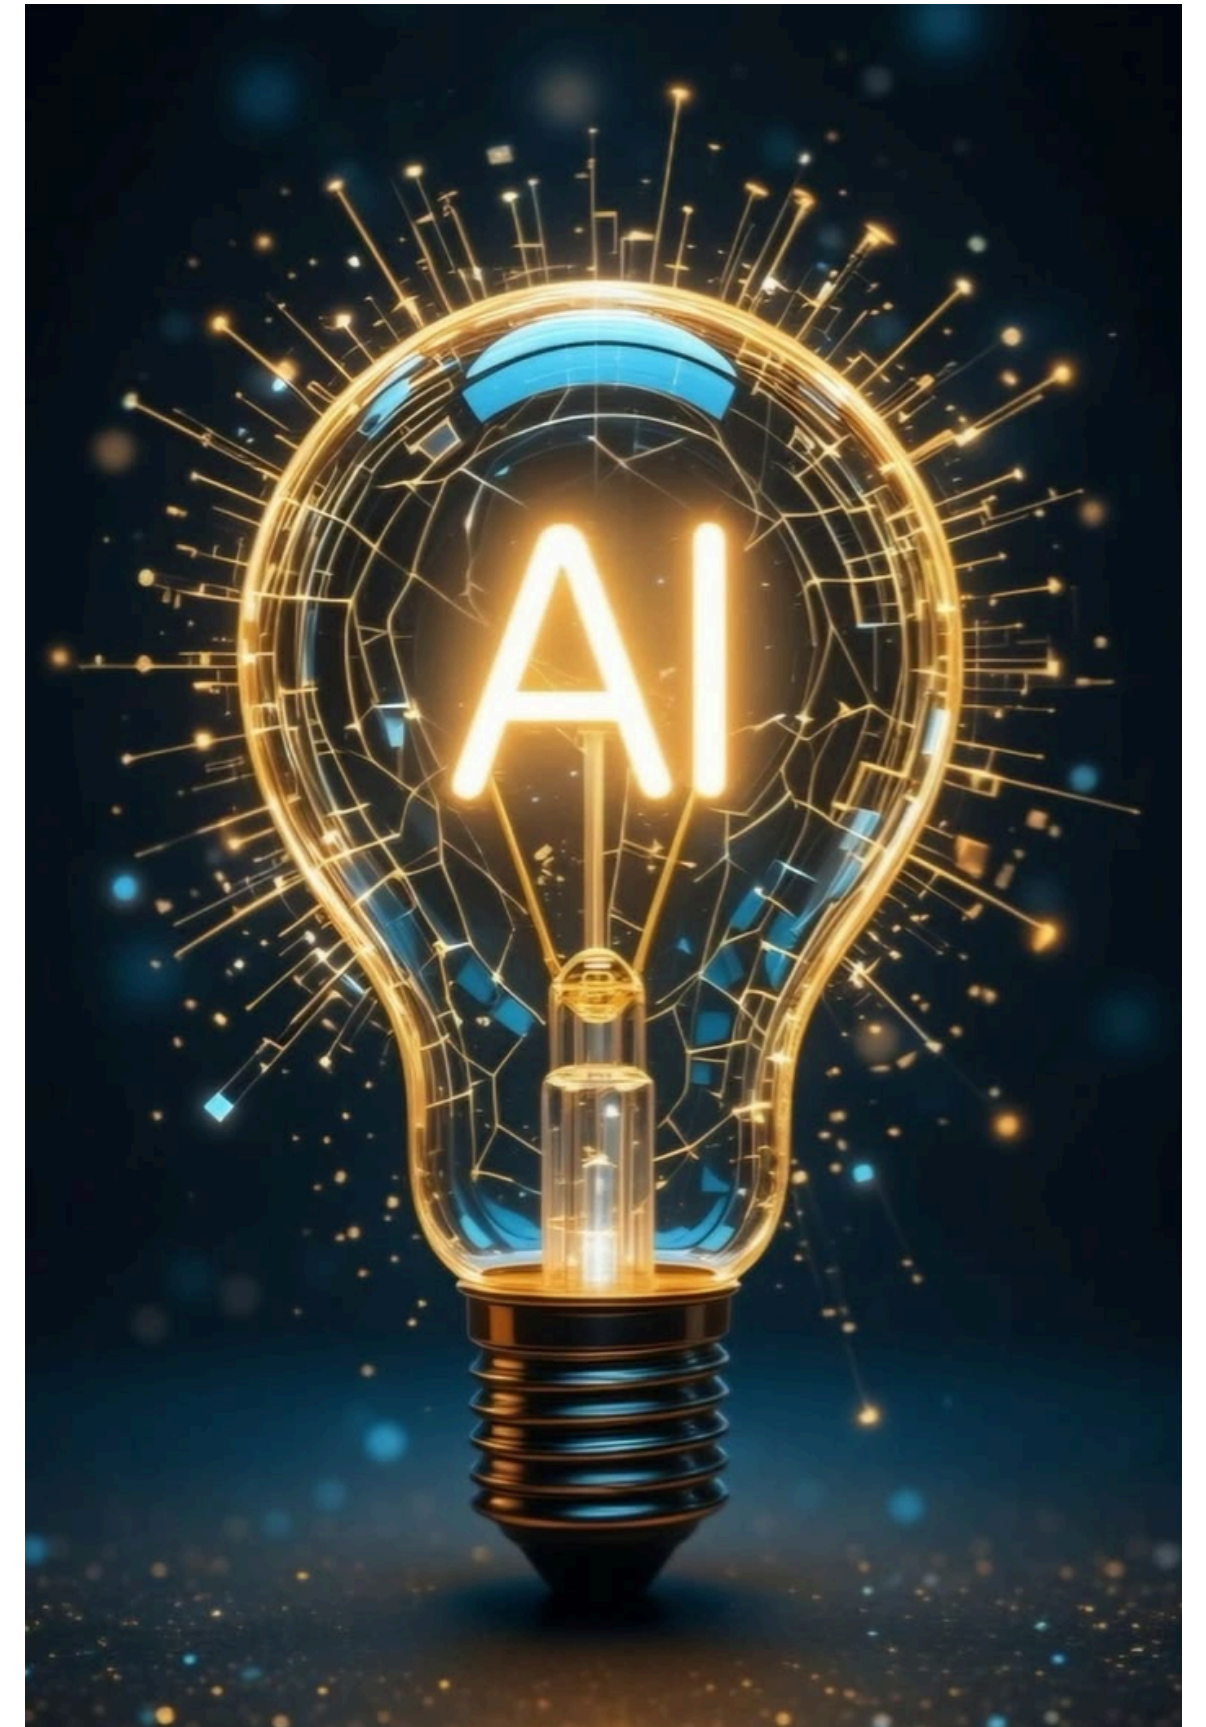

Skills are not efficiently exploited

Project Goal

- Automatically match employees to activities based on skills and experience
- Use AI & NLP to understand activity requirements and context
- Continuously learn from feedback to improve recommendations

Study of the Existing

solutions in HR management systems

Company / Product	Key Features	Limitations
	• Talent management, • Skills tracking • Learning & Succession planning	• Limited AI matching • Rule-based • Poor dynamic skill mapping
	• Employee management • Performance & Goals • Learning & Recruiting	• Complex setup • Weak NLP • Manual skill tagging
	• Market trends • Skill gap analysis • Talent pool analytics	• External focus only • No real-time internal matching

Proposed Solution

1

Intelligent recommendation
based on AI

- Automatically analyze the activity description
- Extract key skills and context

2

Automation of employee
selection

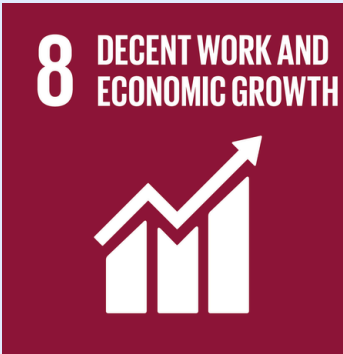

An automated system capable of identifying the employees best suited to a given activity (training, project, mission, audit, certification)

3

Intelligent skills management

Each skill is associated with a dynamic level (low, medium, high, expert) which evolves over time according to participation and post-activity assessments

CHOSEN SDGS!

EFFICIENCY AND TIME SAVINGS
IN HR MANAGEMENT

OBJECTIVITY IN
DECISIONS

CONTINUOUS DEVELOPMENT
OF EMPLOYEES SKILLS

VALUE & INNOVATION IN RELATION WITH ACCESSIBILITY

Voice commands and speech synthesis

Improving employee inclusion and autonomy by implementing the ability for vocal interaction with the platform.

Advanced display customization

Enhanced autonomy and inclusive use of the platform by giving the possibility for the user to customize the interface display.

FUNCTIONAL REQUIREMENTS

**AI-BASED EMPLOYEE
RECOMMENDATION**

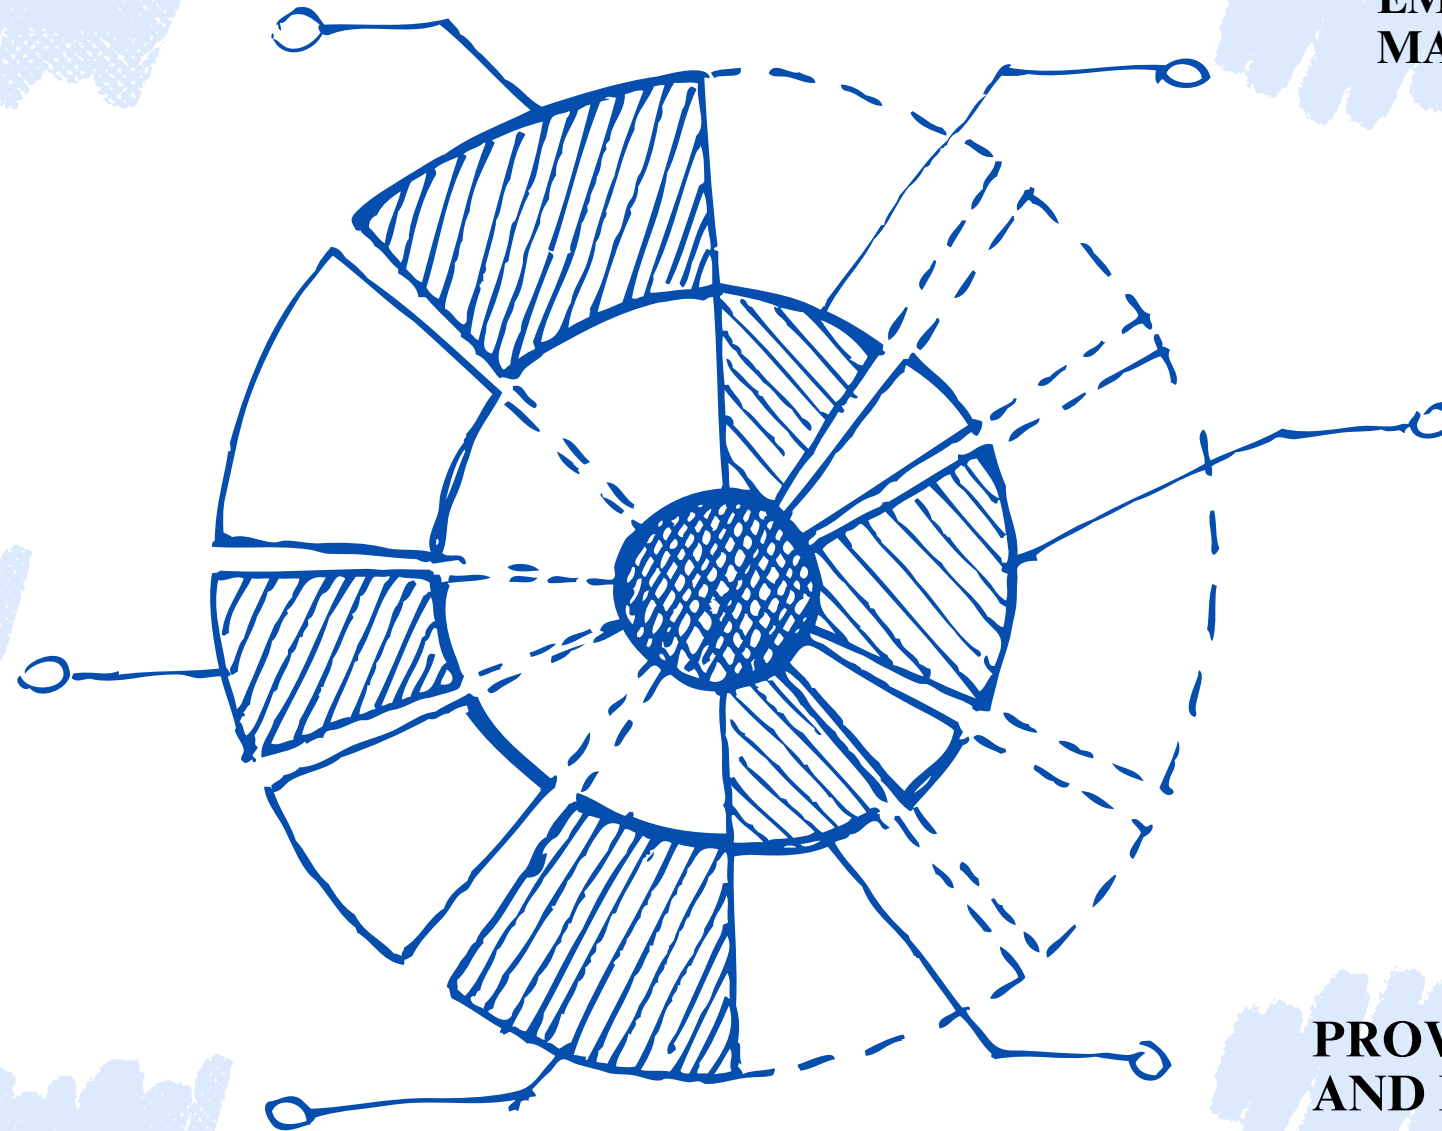

**EMPLOYEE AND ACTIVITY
MANAGEMENT**

**TRACK SKILL EVOLUTION AND POST-
ACTIVITY EVALUATION**

SKILL AND CONTEXT EXTRACTION

**AUTOMATED EMPLOYEE
SELECTION SUPPORT**

**PROVIDE ANALYTICAL DASHBOARDS
AND DECISION TRACEABILITY**

TECHNICAL REQUIREMENTS

**MODULAR AND SCALABLE SYSTEM
ARCHITECTURE**

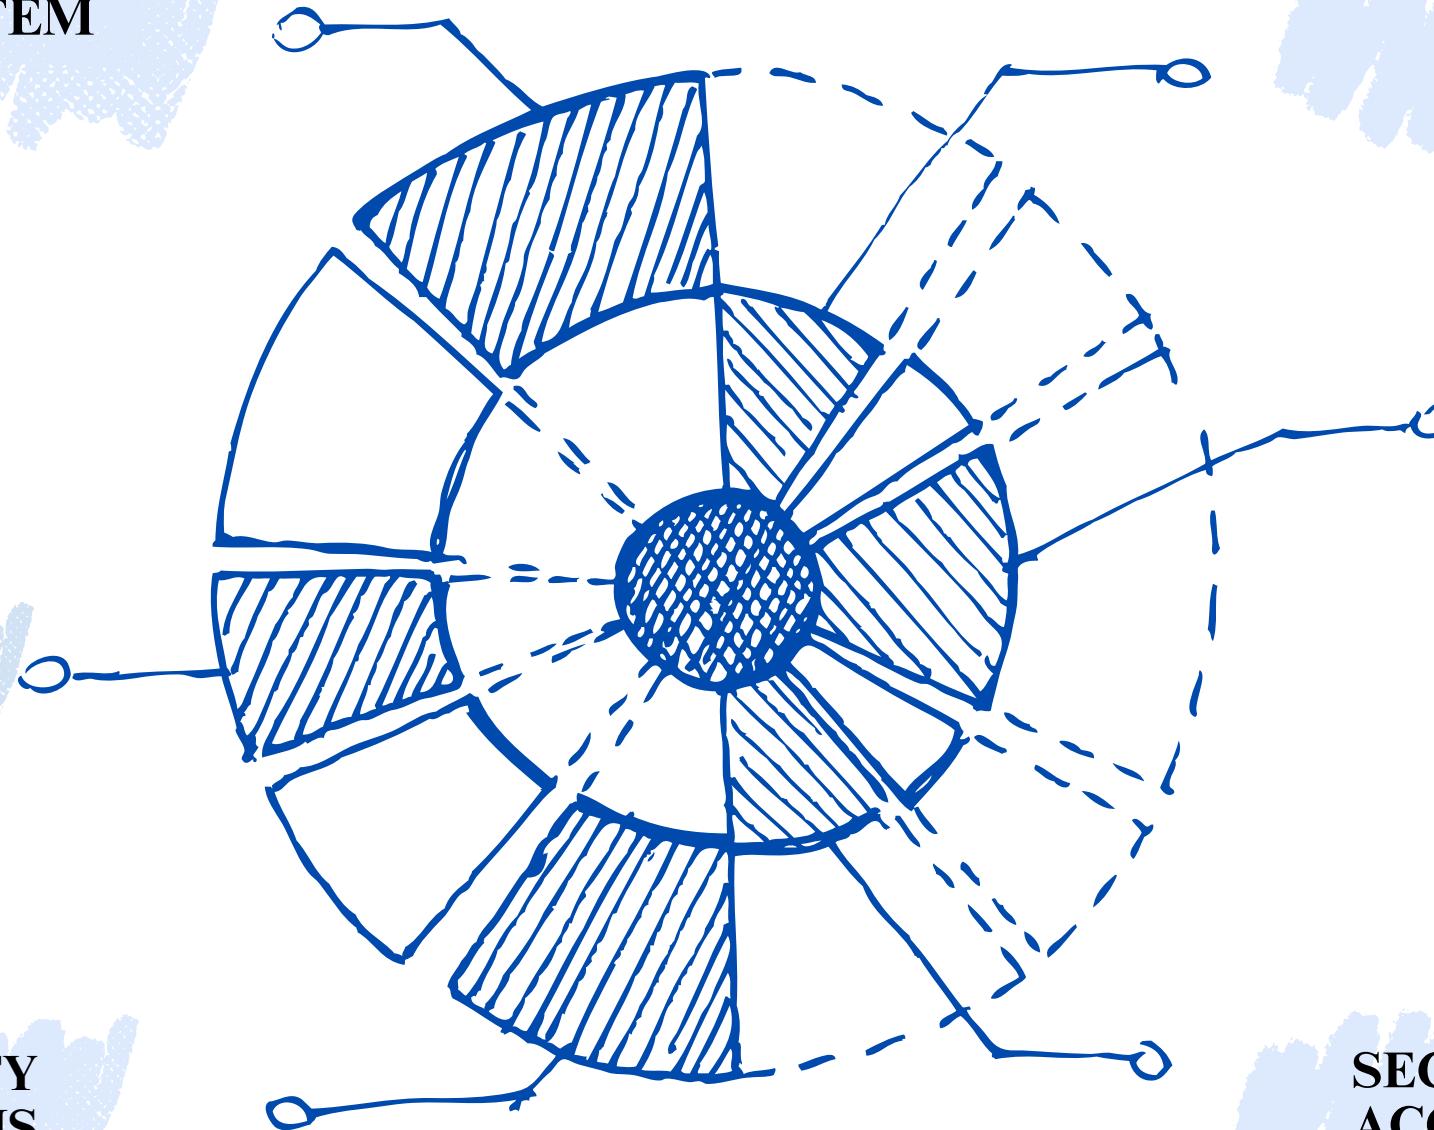

**DECISION TRACEABILITY AND
AUDIT LOGGING**

**ANALYTICAL DASHBOARDS
INFRASTRUCTURE**

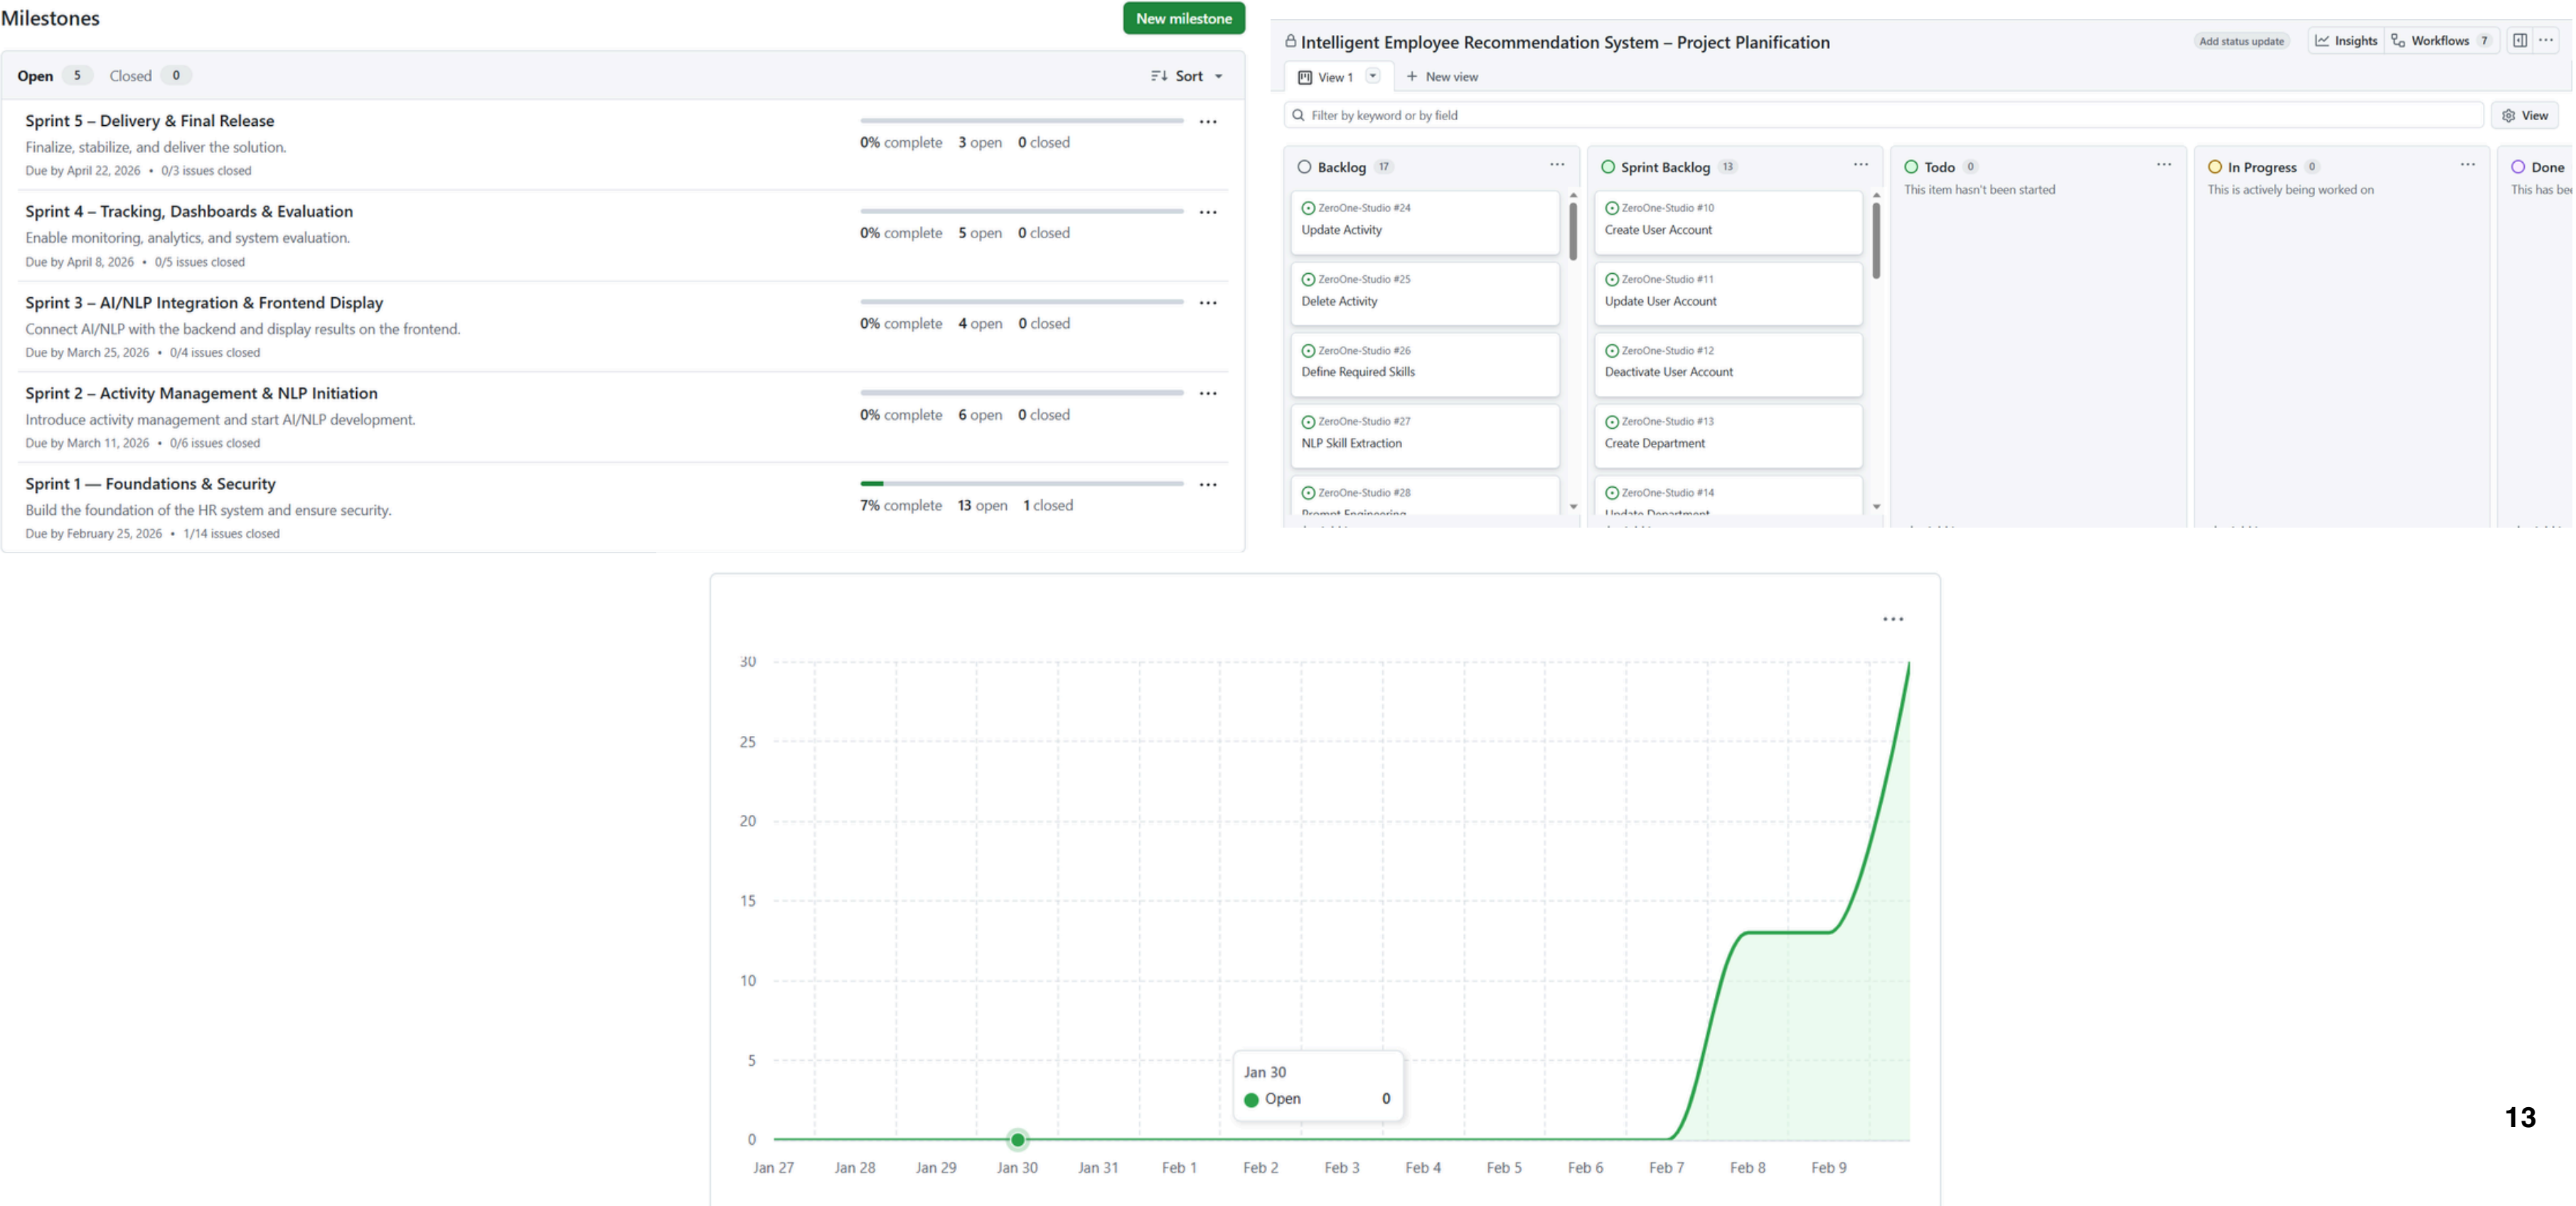

**INTEGRATION OF MACHINE
LEARNING MODELS**

**NLP MODULE FOR ACTIVITY
DESCRIPTION ANALYSIS**

**SECURITY AND ROLE-BASED
ACCESS CONTROL**

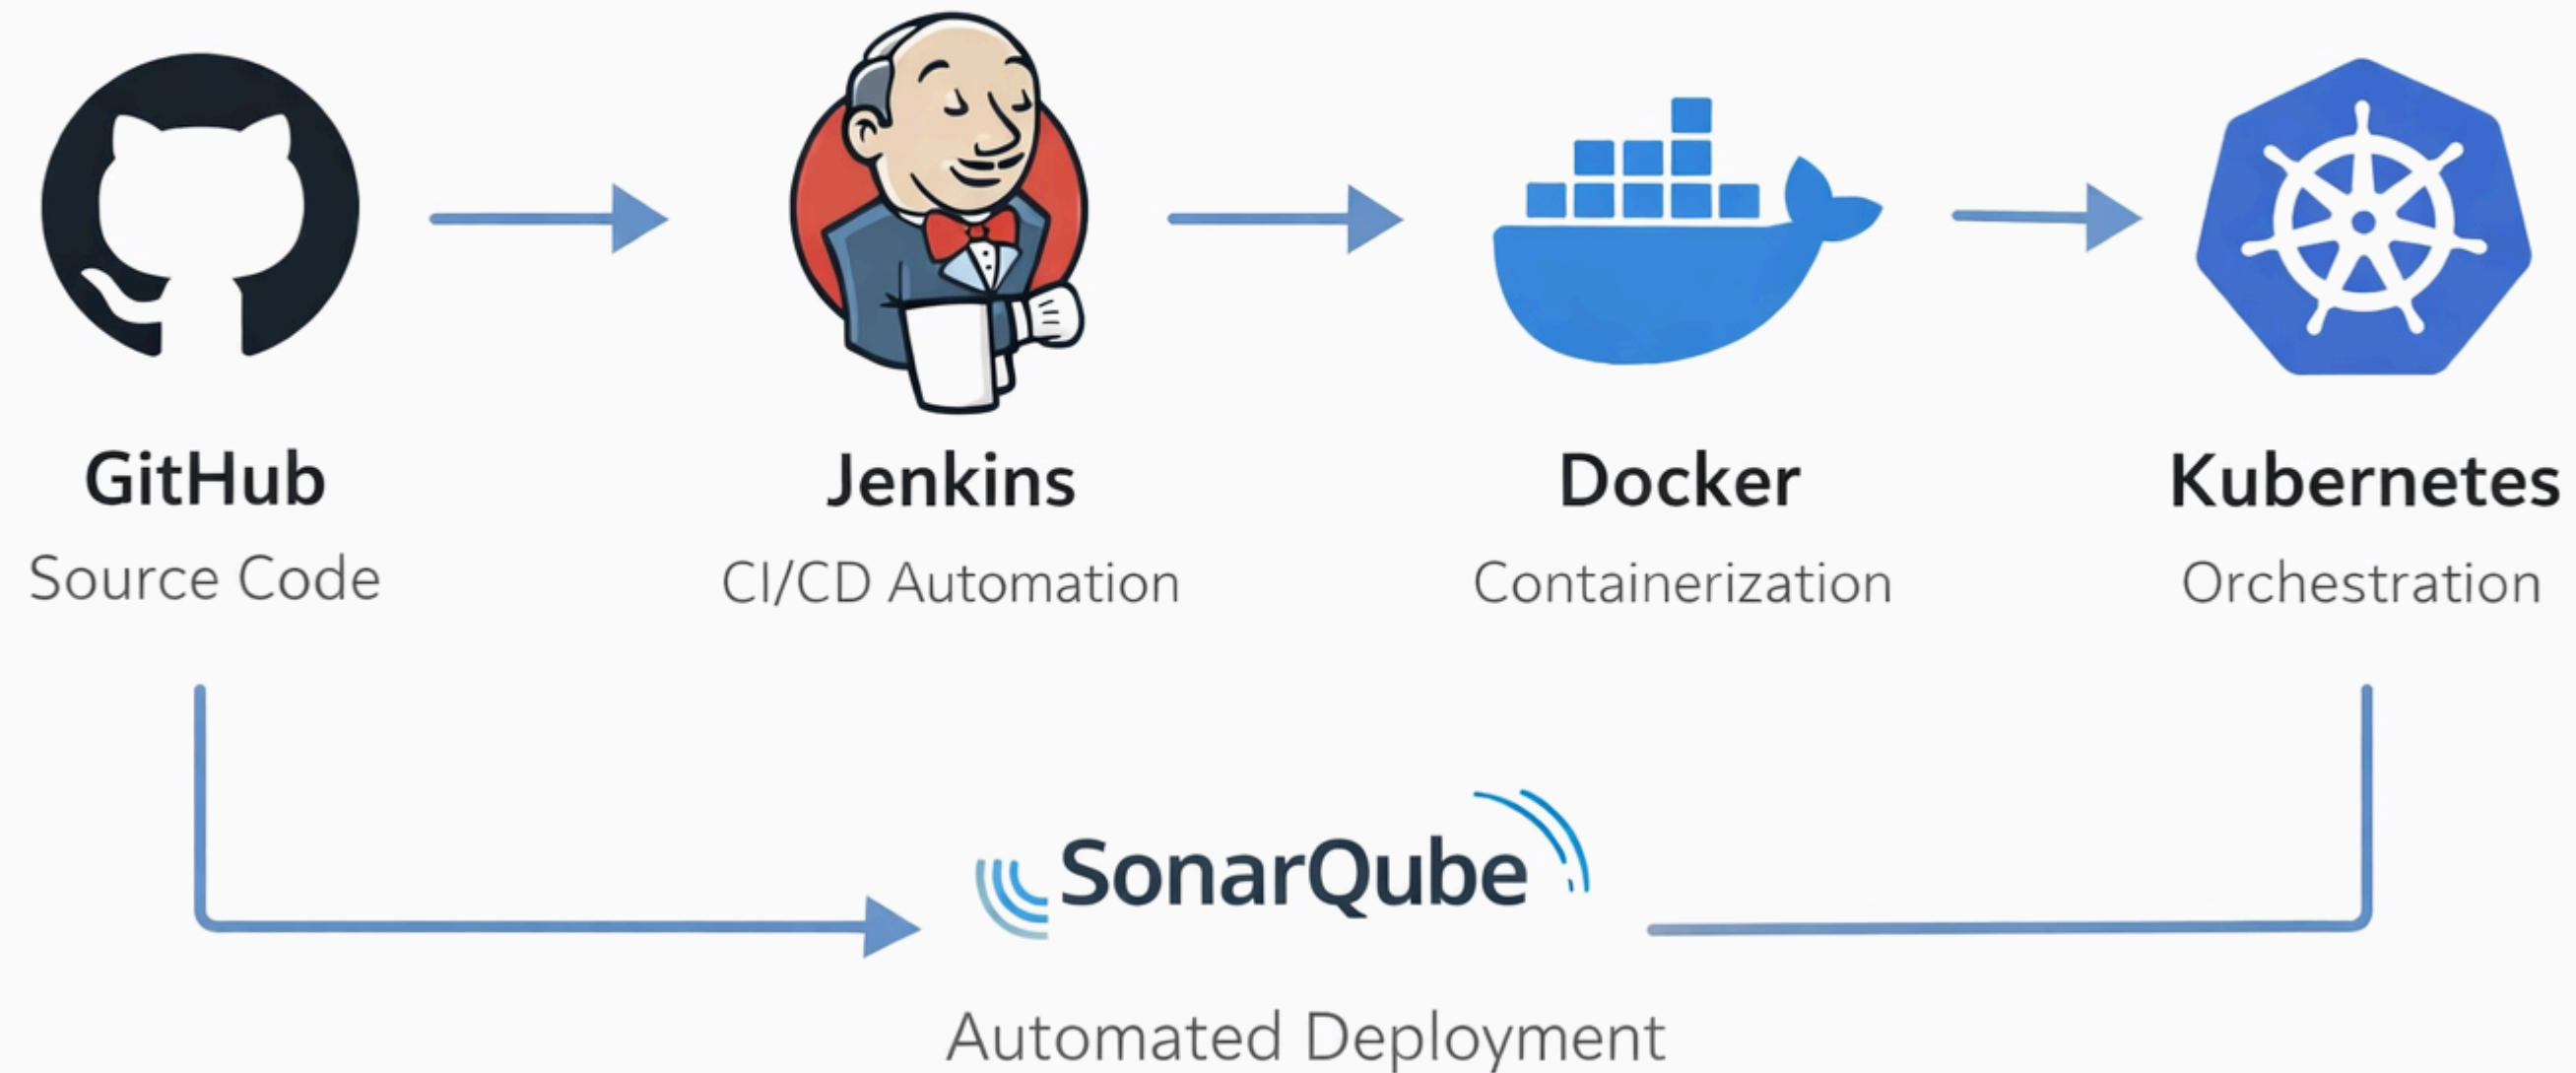

PLANNIFICATION GIT

DEVOPS TOOLS

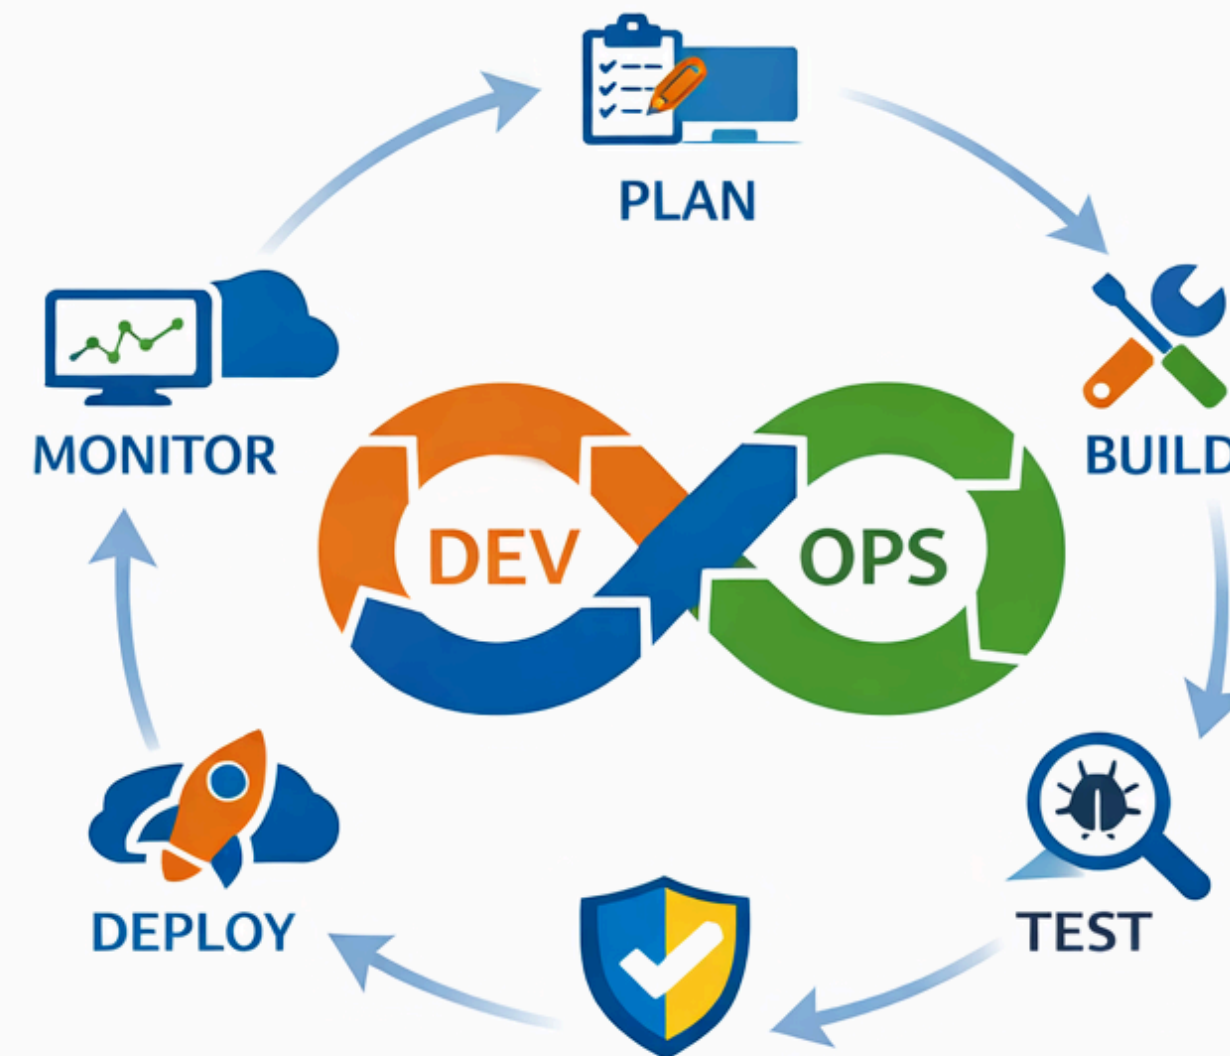

Planned DevOps architecture ensuring automation , quality , salability

DEVOPS STRATEGY

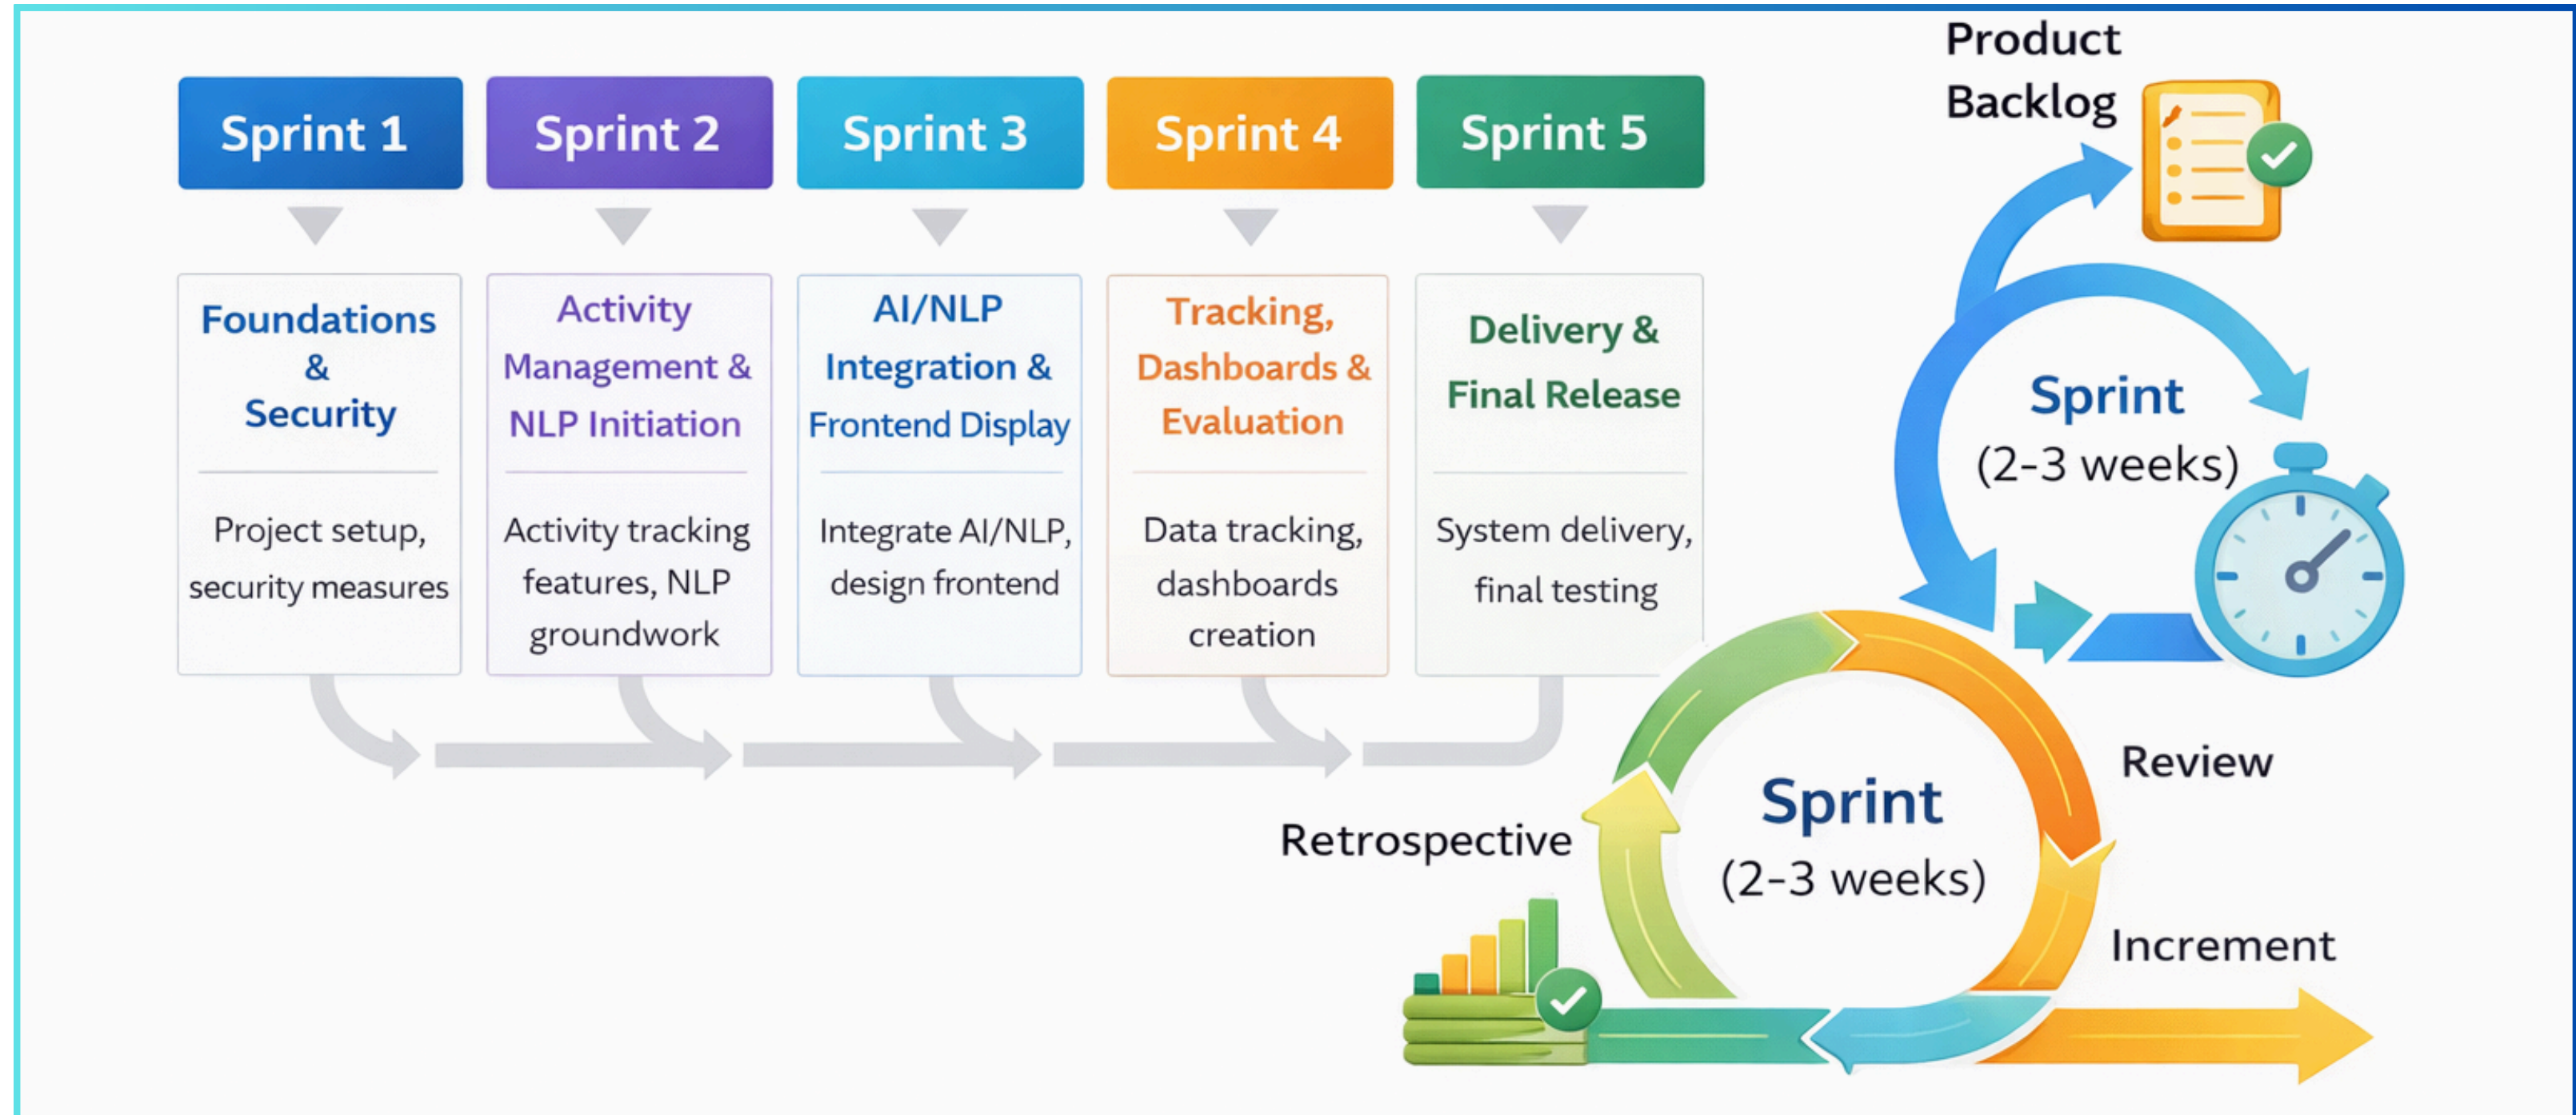

Automation & Continuous Delivery

-  Automation-first approach
-  Continuous Integration & Testing
-  Container-based Deployment
-  Scalability and High Availability
-  Continuous Code Quality Monitoring

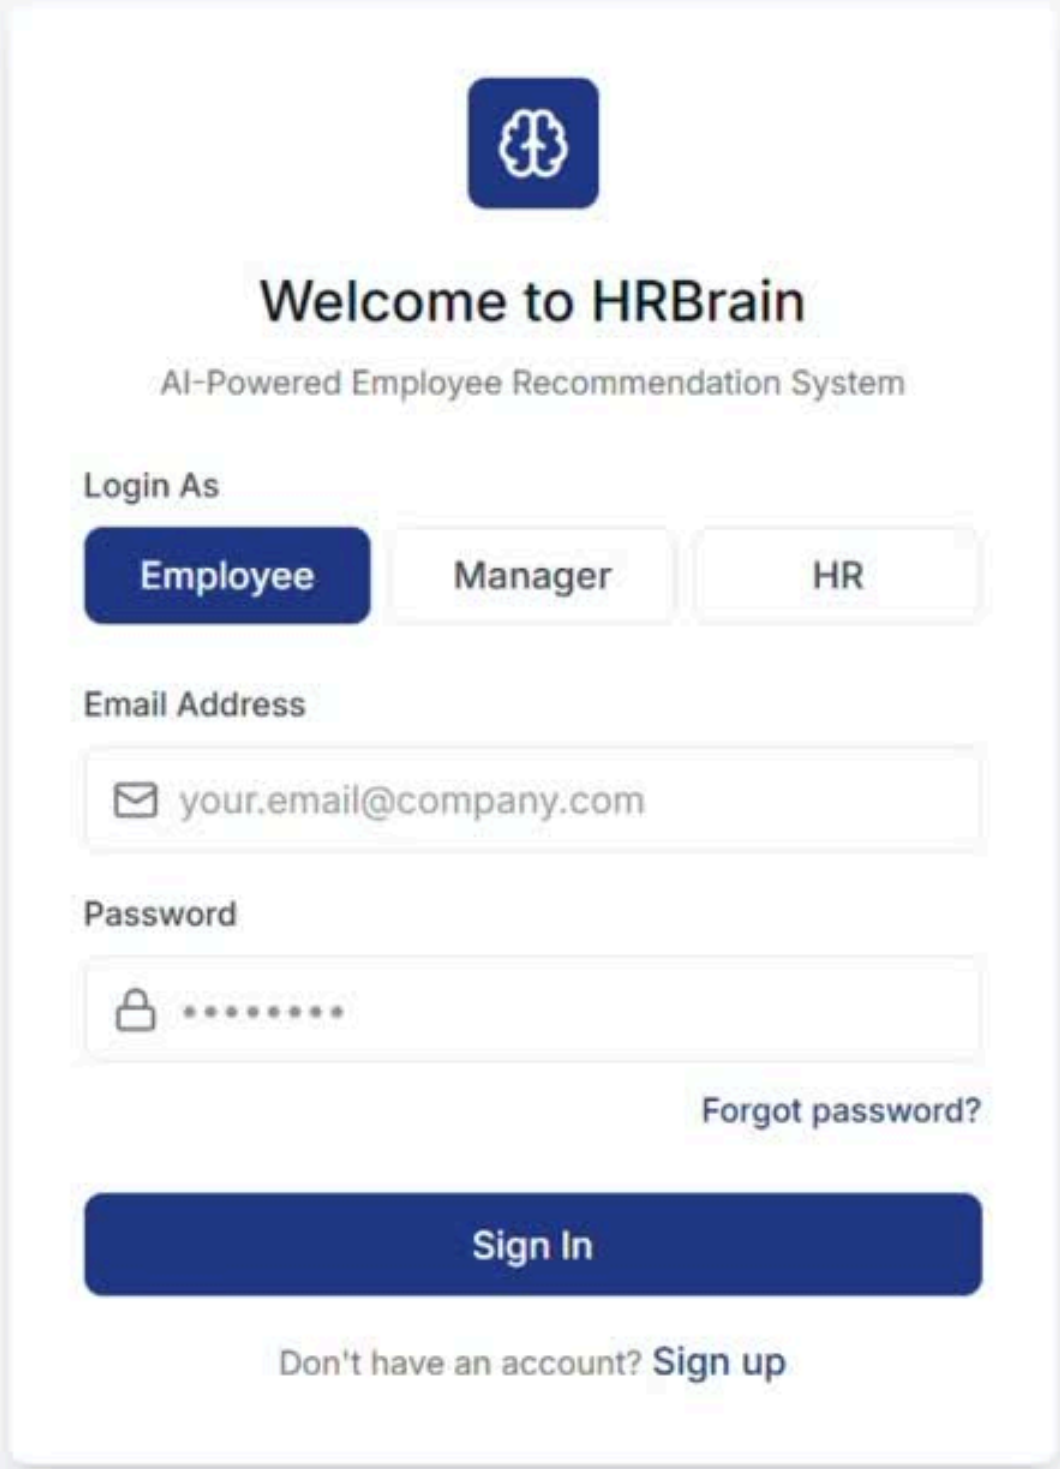

METHODOLOGY

SCRUM

PROTOTYPE

A login form for HRBrain, an AI-Powered Employee Recommendation System. The form is centered on a light gray background with dark gray vertical bars on the left and right. It features a blue brain icon at the top, followed by the title 'Welcome to HRBrain' and subtitle 'AI-Powered Employee Recommendation System'. Below this is a 'Login As' section with three buttons: 'Employee' (dark blue), 'Manager' (light gray), and 'HR' (light gray). The 'Employee' button is selected. The form then has two input fields: 'Email Address' with a placeholder 'your.email@company.com' and an envelope icon, and 'Password' with a placeholder of seven dots and a lock icon. A 'Forgot password?' link is positioned to the right of the password field. A large dark blue 'Sign In' button is at the bottom of the form. Below the button is a link 'Don't have an account? Sign up'. At the very bottom, a small text line reads 'By signing in, you agree to our Terms of Service and Privacy Policy'. A small circular help icon with a question mark is in the bottom right corner.
